

God's Magnificent Creation

God has a way of doing it
His creations are always a hit
His brush just flows and flows
Our expectations are never low

God's colorless canvas was blank
His crave for creation is a full tank
He said let there be light
It was no longer night

God created everything with a season
He has an extraordinary reason
Flowers have intricate designs
Every petal is perfectly aligned

He used all types of brushes
Using different colored blushes
God is wonderful because
Magnificent things he does
